

K2- vision laser marking system

Vision-based marking and sculpting are possible and precise work is possible.

SPECIFICATION

Detailed specification consultation required
070-4571-1900 (Technical sales team)

APPLICATIONS

Serial and barcode marking, Solar sell cutting, Electric parts logo, Auto mobile parts, Surgical instruments, Ultra hard tools, Mold, Accessories, Plastic marking, Gifts.

Fabric and leather design, Architectual Modeling, Acrylic Design, Accessory, Pop Sign, Decorating Design, Wood Rrt, Fabric and Textile-Label, Interior, Exterior Design, Paper Craft.

MATERIALS

All kinds of metal, Plastic, Ceramic, PCB, Semiconductor, ABS, Fuse, Gasket, Flim Acrylic, Wood, Paper, Fabric, Vinyl, Plastic, Stone, Tile, Glaass, All non-metal materials.
film Drilling/Cutting/Scribing, FPC, chip on flex, multi-chip modules, Pcmcia card

Data Matrix Code Recognition

Character Recognition

Barcode Recognition

Surface Test

Print Comparison Test

Checking Car Wheel

Numerical Measurement Test

Location Measurement Test

Color Recognition Test

K2- MMF laser marking system

Precise laser marking and engraving machine For metal and plastic materials

K2MMF

SPECIFICATION

Detailed specification consultation required
070-4571-1900 (Technical sales team)

FEATURES

- Long-lasting life time(100,000 hrs.) of laser module
- High-speed galvanometer scanner applied
- Automatically generating serial no., date, text, etc
- Semi-automatic focus control
- Powerful multi-functional marking software

APPLICATIONS

Serial and barcode marking, Solar cell cutting, Electric parts logo, Auto mobile parts, Surgical instruments, Ultra hard tools, Mold, Accessories, Plastic marking, Gifts.

MATERIALS

All kinds of metal, Plastic, Ceramic, PCB, Semiconductor, ABS, Fuse, Gasket, Film

Application photos

K2 - marking+cutting system

레이저 커팅과 마킹 기능을 모두 갖춘 장비입니다.

Fiber laser type

MATERIALS

All kinds of metal, Plastic, Ceramic, PCB, Semiconductor, ABS, Fuse, Gasket, Flim

SPECIFICATION

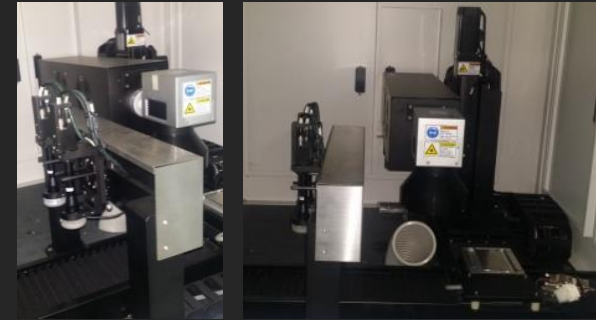

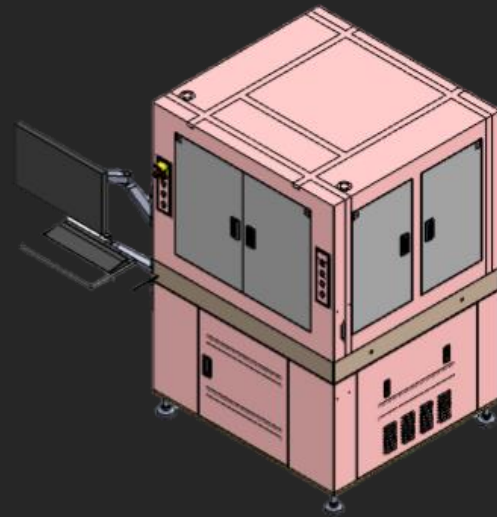

Detailed specification consultation required

070-4571-1900 (Technical sales team)

K2 - laser trimming system

This product can be marked and carved using vision. It can be worked accurately.

Fiber laser type , CO2 laser type , UV laser type

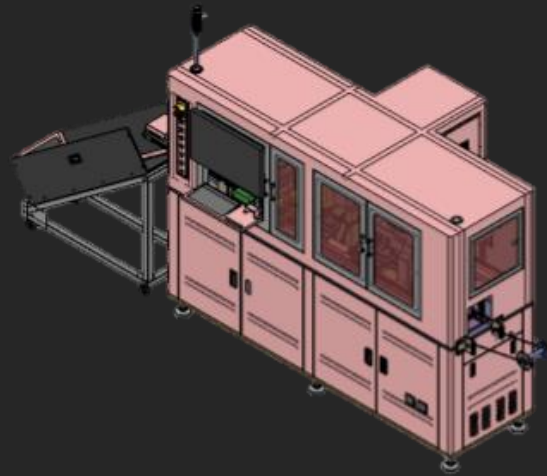

SPECIFICATION

Detailed specification consultation required
070-4571-1900 (Technical sales team)

K2 자동차 부직포 Cutting Machine

부직포 원단 레이저 커팅이 가능하며, 저 출력 부터 고 출력까지 사용자 선택의 폭을 넓혔습니다.

CO2 laser type, UV laser type

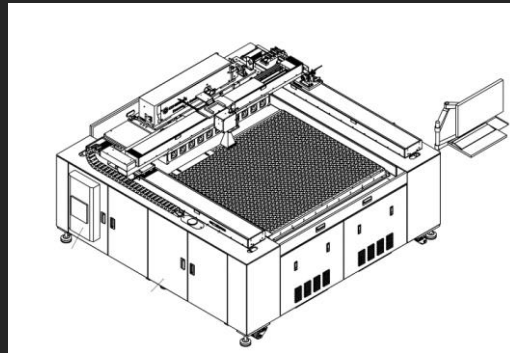

SPECIFICATION

Detailed specification consultation required
070-4571-1900 (Technical sales team)

K2 5축 FLY

On-the-fly(MOTF) laser marking을 지원하며, 5축 시스템을 적용한 레이저 마킹기 입니다.

Fiber laser type , CO2 laser type , UV laser type

roll to roll system 적용 가능

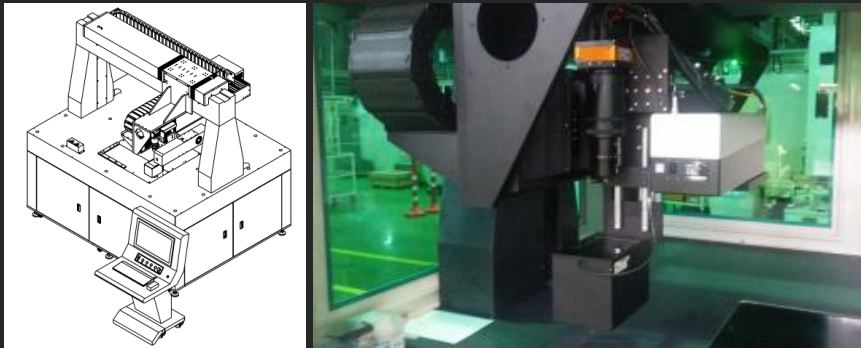

SPECIFICATION

Detailed specification consultation required
070-4571-1900 (Technical sales team)

K2-vision+rotary+3D system

비전을 이용한 3D 레이저 마킹,조각이 가능한 제품이며 정밀한 작업이 가능합니다.

Fiber laser type

APPLICATIONS

Serial and barcode marking, Solar cell cutting, Electric parts logo, Auto mobile parts, Surgical instruments, Ultra hard tools, Mold, Accessories, Plastic marking, Gifts.

MATERIALS

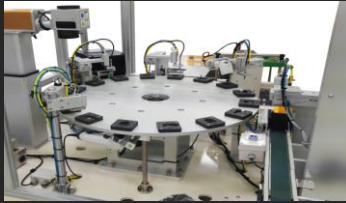

Acrylic, Wood, Paper, Fabric, Vinyl, Plastic, Stone, Tile, Glass, All non-metal materials.

SPECIFICATION

Detailed specification consultation required
070-4571-1900 (Technical sales team)

Product Name : MOB Marking

Product Name : Label Marking
(Roll To Roll 시스템)

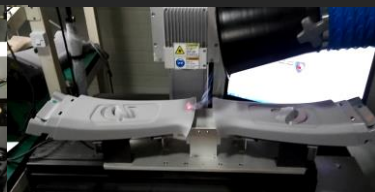

Product Name : ITO Film Marking

Product Name : PCB Marking

Product Name : 자동차 부품 Marking

PCB Marking

원통형 Marking

SMT Laser Marking

Motor Housing Marking
(턴 테이블 적용)
